

Recipe Unlimited Reports Positive Same Restaurant Sales Growth of 1.9% and EBITDA growth of 32.7%

VAUGHAN, ON, Aug. 9, 2018 /CNW/ - Recipe Unlimited Corporation (formerly Cara Operations) reported financial results today for the 13 and 26 weeks ending July 1, 2018.

"I want to thank the Franchisees, Associates and Brand teams for a positive second quarter result. Same Restaurant Sales grew 1.9% in the quarter and year to date. Operating EBITDA was \$55.2 million in the quarter and \$102.6 million year to date, representing an increase of \$13.6 million or 32.7% and \$18.1 million or 21.4%, respectively.

During these early days at Recipe, I have had the opportunity to meet many of our franchisee partners and operating associates. I am impressed by their passion and I look forward to working with them as we focus on building profitable same restaurant sales. Our near term focus will be to elevate our consumer proposition, increase associate engagement and enhance our culture to reflect our business goals to achieve leadership in the restaurant business by putting people first," commented Frank Hennessey, Chief Executive Officer.

Highlights for the 13 and 26 weeks ended July 1, 2018:

- System Sales grew \$213.4 million to \$874.2 million for the 13 weeks ended July 1, 2018 as compared to 2017, representing an increase of 32.3%. For the 26 weeks ended July 1, 2018, System Sales grew \$310.2 million to \$1,630.1 million compared to the same period in 2017, representing an increase of 23.5%. The increase in System Sales is primarily related to same restaurant sales increases, the additions of Burger's Priest in June 2017, Pickle Barrel in December 2017, and The Keg in February 2018.
- Same Restaurant Sales ("SRS") Growth for the 13 and 26 weeks ended July 1, 2018 was an increase of 1.9% compared to the same 13 and 26 weeks in 2017. This SRS increase represents the fourth consecutive positive SRS quarter. While management is pleased with the positive trend, management continues to focus on long-term profitable SRS growth with both short and long term strategies to improve SRS with focus on 4 Pillars - Quality of Food, Quality of Service, Value for Experience, and Ambience. This also includes new and improved e-commerce applications that will be expanded to most brands over the next 2 years, effective use of technology to enhance Guest experiences and efficiencies, and brand specific digital-social media marketing.
- Operating EBITDA increased to \$55.2 million for the 13 weeks ended July 1, 2018 compared to \$41.6 million in 2017, an improvement of \$13.6 million or 32.7% for the quarter. Year to date, Operating EBITDA was \$102.6 million compared to \$84.5 million in 2017, an improvement of \$18.1 million or 21.4%. The increases have been driven by the same restaurant sales increases, improved contribution from the corporate and franchise segments, improved contribution from Original Joe's, and the addition of The Keg in February 2018, partially offset by The Keg royalty expense paid to the Keg Royalty Income Fund.
- Operating EBITDA Margin on System Sales was 6.3% for the second quarter as compared to 6.3% in 2017. Year to date, Operating EBITDA Margin on System Sales was 6.3% compared to 6.4% in 2017. The decrease is related to The Keg royalty payment. Operating EBITDA Margin on System Sales before The Keg royalty was 6.7% for the second quarter compared to 6.3% in 2017. Year to date, Operating EBITDA Margin on System Sales before The Keg royalty was 6.6% compared to 6.4% in 2017. While The Keg will add EBITDA dollars, because of higher net central overhead costs and the royalty payments to the Keg Royalty Income Fund in the medium term, The Keg merger will reduce Recipe's Operating EBITDA margin on System Sales below the target 7% to 8% range. Management's focus will continue to be on improving the earnings efficiency of our assets and our increased sales base to grow Operating EBITDA as a percentage of System Sales back to within our 7% to 8% target range by 2020-2022.
- Earnings before change in fair value of non-controlling interest liability, change in fair value of Exchangeable Keg Partnership units, and income taxes was \$32.1 million for the 13 weeks ended July 1, 2018 compared to \$21.6 million in 2017, an increase of \$10.5 million or 48.6% for the quarter. Year to date, Earnings before change in fair value and income taxes was \$59.1 million for the 26 weeks ended July 1, 2018 compared to \$49.1 million in 2017, an increase of \$10.0 million or 20.4% year-to-date. The increase was primarily related to the same restaurant sales increases, improved contribution from the corporate and franchise segments, improved contribution from Original Joe's, and the addition of The Keg in February 2018, partially offset by The Keg royalty expense paid to the Keg Royalty Income Fund, and an increase in interest in long-term debt related to the acquisitions.
- Adjusted Basic Earnings per Share ("EPS") for the 13 and 26 weeks ended July 1, 2018 was \$0.49 and \$0.92 compared to \$0.44 and \$0.87 in 2017, an increase of \$0.05 per share and \$0.05 per share, respectively. Adjusted Diluted EPS for the 13 and 26 weeks ended July 1, 2018 was \$0.47 and \$0.89 compared to \$0.42 and \$0.84 in 2017, also an increase of \$0.05 per share and \$0.05 per share, respectively.
- On August 9, 2018, the Company's Board of Directors declared a dividend of \$0.1068 per share of subordinate and multiple voting common stock, an increase of 5% over the second quarter dividend paid in 2017. Payment of the dividend will be made on September 14, 2018 to shareholders of record at the close of business on August 31, 2018. With the Company's strong balance sheet and growing cash flows, management will continue to pursue strategic acquisitions and will explore alternatives to return more capital to its shareholders including continuation of its NCIB and increases to the Company's dividend rate.

Outlook

Management is pleased with the second quarter results and continued growth in all segments, Operating EBITDA and SRS. In the second quarter, Total Systems Sales grew \$213.4 million or 32.3% to \$874.2 million. Operating EBITDA before the net royalty expense increased 41.1% to \$58.7 million with a contribution margin of 6.7% as a percentage of Total System Sales, and Adjusted Net Earnings increased to \$30.5 million. Management provides the following comments regarding its strategies and initiatives:

With the full year impact of The Keg merger, the Company will add approximately \$612.0 million in System Sales, taking the Company to approximately \$3.4 billion in 2018 compared to the initial 2015 IPO target range for 2020-2022 of \$2.5 billion to \$3.0 billion, and the updated target range provided in 2016 after the St-Hubert acquisition of \$2.9 billion to \$3.7 billion. For a full year on a pro forma basis using prior year results, The Keg merger will add approximately \$23.5 million of Operating EBITDA resulting in combined proforma Operating EBITDA of approximately \$211.0 million, also within Recipe's updated target EBITDA range of \$203.0 million to \$296.0 million (based on 7% to 8% of System Sales). However, while The Keg will add EBITDA dollars, because of net central overhead costs and royalty payments to the Keg Royalty Income Fund in the medium term, The Keg merger will reduce Recipe's Operating EBITDA margin on System Sales below the target 7% to 8% range. Management's focus will continue to be on improving the earnings efficiency of our assets and our increased sales base to grow Operating EBITDA as a percentage of System Sales back to within our 7% to 8% target range by 2020-2022.

Management provides the following comments regarding its strategies and initiatives:

- **System Sales and SRS Growth**— Management is pleased with total System Sales growth of 32.3% for the quarter and with SRS of 1.9% for the quarter. Management continues to focus on long-term profitable SRS growth with both short and long term strategies to improve SRS with focus on 4 Pillars - Quality of Food, Quality of Service, Value for Experience, and Ambience. This also includes new and improved e-commerce applications that will be expanded to most brands over the next 2 years, effective use of technology to enhance Guest experiences and efficiencies, and brand specific digital-social media marketing.
- **Total Operating EBITDA**— The combined contributions from Corporate, Franchise, Food Processing and Distribution, and Central segments resulted in Total Operating EBITDA margin before the net royalty to the Keg Royalties Income Fund of 6.7% as a percentage of Total System Sales for the quarter compared to 6.3% in 2017. Operating EBITDA after the net royalty was 6.3% for the second quarter. While The Keg will add EBITDA dollars, because of net central overhead costs and royalty payments to the Keg Royalty Income Fund in the medium term, The Keg merger will reduce Recipe's Operating EBITDA margin on System Sales below the target 7% to 8% range. Management's focus will continue to be on improving the earnings efficiency of our assets and our increased sales base to grow Operating EBITDA as a percentage of System Sales back to within our 7% to 8% target range by 2020-2022.
- **Corporate restaurant profitability**— Corporate restaurant profitability was 12.0% for the quarter compared to 10.1% in 2017. The improvement during the quarter was mostly from improvements in Original Joe's corporate and joint venture restaurants and the addition of The Keg which operates within our target range. Management believes there is significant opportunity for improved contribution in the future from Original Joe's and Pickle Barrel as Management realizes operating synergies from lower food and beverage costs and better labour management tools. Contribution will also improve as renovated restaurants re-open at higher sales levels, as the western provinces and Newfoundland recover from the economic slowdown and from the sale of certain corporate restaurants in franchise banners.

Management will continue to pursue the sale of certain corporate restaurants in its franchise banners to franchisees and will pursue the sale of its share in joint venture locations to the Company's joint venture partners to convert joint venture locations to franchise to improve the corporate-franchise portfolio mix. During the 26 weeks ended July 1, 2018, 5 corporate restaurants were sold and re-franchised.

- **Franchise segment**— Franchise contribution as a percentage of franchise sales has improved to 4.1% in the second quarter of 2018 compared to 3.9% in 2017. The increase is primarily related to the addition of The Keg which collects average royalties over 5%.
- **Food processing and distribution**— Contribution dollars from food processing and distribution was \$2.5 million and \$5.4 million for the 13 and 26 weeks ended July 1, 2018, compared to \$0.6 million in and \$5.3 million in 2017. Management expects to have a new pie production line added in the third quarter which will increase capacity and enable the Company to meet the increased demand for its St-Hubert and Swiss Chalet frozen pie products with less reliance on higher cost third party producers.
- **Central segment**— The addition of The Keg has added net central overhead costs, including the royalty payments, thus reducing central contribution as a percentage of System Sales. Management will work towards realizing synergy opportunities with the companies acquired, expand our off premise business, including catering with the addition of Pickle Barrel, and we will continue to improve on our model for growing sales faster than head office expenses, and realizing earnings efficiency on higher system sales.
- **Restaurant Count**— In the 26 weeks ended July 1, 2018, excluding the acquisitions, the Company opened 27 new restaurant locations as compared to 25 in 2017. Year to date the Company closed 26 restaurants (excluding Casey's closures) compared to 20 closures in 2017. Included in the closures were underperforming locations where the closure will benefit the overall system performance and the Company's profitability going forward. Closures also included locations that no longer fit the long term strategy of certain brands. Management will continue to review its portfolio of restaurants and will opportunistically close underperforming or non-strategic locations that will benefit the Company long term.

- *The Keg merger initiatives* – Management is focused on realizing synergy opportunities from The Keg merger to improve our combined earnings and earnings efficiency. Management is also excited to add the influence of David Aisenstat to the Milestones, Bier Markt and Landing premium brands.
- *Retail opportunities* – Since the acquisition of St-Hubert in 2017, the Company has successfully launched a number of products, including Swiss Chalet ribs and pot pies, across the country in grocery chains. Management is pursuing the launch of several more Recipe branded retail products to expand its retail presence in national grocery chains.
- *Growth and acquisitions* —The Company currently has a debt to EBITDA ratio of approximately 2.05x. At this debt level, and with strong cash flow from operations, the Company has the ability to consider more growth opportunities while continuing to reduce its debt, and by opportunistically repurchasing its subordinate voting shares for cancellation under the NCIB.

The foregoing description of Recipe's outlook is based on management's current strategies and its assessment of the outlook for the business and the Canadian Restaurant Industry as a whole, may be considered to be forward-looking information for purposes of applicable Canadian securities legislation. Readers are cautioned that actual results may vary. See "Forward-Looking Information" and "Risk & Uncertainties" for a description of the risks and uncertainties that impact the Company's business and that could cause actual results to vary.

Non-IFRS Measures

These measures are not recognized measures under IFRS, do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these measures are provided as additional information to complement those IFRS measures by providing further understanding of the Company's results of operations from management's perspective. Accordingly, they should not be considered in isolation nor as a substitute for analysis of the Company's financial information reported under IFRS. The Company uses non IFRS measures including "System Sales", "SRS Growth", "Operating EBITDA", "Operating EBITDA Margin", "Operating EBITDA Margin on System Sales", "Adjusted Earnings before income tax", "Adjusted Earnings", "Adjusted Basic EPS", and "Adjusted Diluted EPS", to provide investors with supplemental measures of its operating performance and thus highlight trends in its core business that may not otherwise be apparent when relying solely on IFRS financial measures. The Company also believes that securities analysts, investors and other interested parties frequently use non IFRS measures in the evaluation of issuers. The Company's management also uses non IFRS measures in order to facilitate operating performance comparisons from period to period, to prepare annual operating budgets, and to determine components of management compensation.

"System Sales" represents top line sales from restaurant guests at both corporate and franchise restaurants including take out and delivery customer orders. System Sales includes sales from both established restaurants as well as new restaurants. System sales also includes sales received from its food processing and distribution division. Management believes System Sales provides meaningful information to investors regarding the size of Recipe's restaurant network, the total market share of the Company's brands sold in restaurant and grocery and the overall financial performance of its brands and restaurant owner base, which ultimately impacts Recipe's consolidated financial performance.

"System Sales Growth" is a metric used in the restaurant industry to compare System Sales over a certain period of time, such as a fiscal quarter, for the current period against System Sales in the same period in the previous year.

"SRS Growth" is a metric used in the restaurant industry to compare sales earned in established locations over a certain period of time, such as a fiscal quarter, for the current period against sales in the same period in the previous year. SRS Growth helps explain what portion of sales growth can be attributed to growth in established locations and what portion can be attributed to the opening of net new restaurants. Recipe defines SRS Growth as the percentage increase or decrease in sales during a period of restaurants open for at least 24 complete fiscal months relative to the sales of those restaurants during the same period in the prior year. Recipe's SRS Growth results excludes Casey's restaurants as the Company is in the process of winding down its operations; and sales from international operations from 44 New York Fries and 3 US East Side Mario's.

"EBITDA" is defined as net earnings (loss) before: (i) net interest expense and other financing charges; (ii) income taxes; (iii) depreciation of property, plant and equipment; (iv) amortization of other assets and deferred gain.

"Operating EBITDA" is defined as net earnings (loss) before: (i) net interest expense and other financing charges; (ii) income taxes; (iii) depreciation of property, plant and equipment; (iv) amortization of other assets and deferred gain; (v) impairment of assets, net of reversals; (vi) losses on early buyout / cancellation of equipment rental contracts; (vii) restructuring and other; (viii) conversion fees; (ix) net (gain) / loss on disposal of property, plant and equipment; * stock based compensation and costs related to its restricted share units; (xi) changes in onerous contract provision;; (xii) expense impact from fair value inventory adjustment resulting from the St-Hubert purchase relating to inventory sold during the period; (xiii) acquisition related transaction costs; (xiv) change in fair value of non-controlling interest liability; (xv) change in fair value of Exchangeable Partnership units; (xvi) the Company's proportionate share of equity accounted investment in joint ventures; and (xvii) interest income from the Partnership units.

"Operating EBITDA Margin" is defined as Operating EBITDA divided by total gross revenue.

"Operating EBITDA Margin on System Sales" is defined as Operating EBITDA divided by System Sales.

"Adjusted Net Earnings" is defined as net earnings plus (i) deferred income tax expense (reversal); (ii) non-cash amortization of inventory fair value increases related to inventory sold during the period resulting from the St-Hubert purchase determined at acquisition date; (iii) change in fair value of non-controlling interest liability; (iv) change in fair value of Exchangeable Partnership units; (v) one-time transaction costs; (vi) non-cash impairment charges; and (vii) restructuring and other.

"Adjusted Basic EPS" is defined as Adjusted Net Earnings divided by the weighted average number of shares outstanding.

"Adjusted Diluted EPS" is defined as Adjusted Net Earnings divided by the weighted average number of shares outstanding plus the dilutive effect of stock options and warrants issued.

Forward-Looking Information

Certain statements in this press release may constitute "forward-looking" statements within the meaning of applicable Canadian securities legislation which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company or the industry in which they operate, to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements. When used in this press release, such statements use words such as "may", "will", "expect", "believe", "plan" and other similar terminology. These statements reflect management's current expectations regarding future events and operating performance and speak only as of the date of this news release. These forward-looking statements involve a number of risks and uncertainties, including those related to: (a) the Company's ability to maintain profitability and manage its growth including SRS Growth, System Sales Growth, increases in net income, Operating EBITDA and Operating EBITDA Margin on System Sales, and Adjusted net earnings (b) competition in the industry in which the Company operates; (c) the general state of the economy; (d) integration of acquisitions by the Company; (e) risk of future legal proceedings against the Company. These risk factors and others are discussed in detail under the heading "Risk Factors" in the Company's Annual Information Form dated March 2, 2017. New risk factors may arise from time to time and it is not possible for management of the Company to predict all of those risk factors or the extent to which any factor or combination of factors may cause actual results, performance or achievements of the Company to be materially different from those contained in forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Although the forward-looking statements contained in this press release are based upon what management believes to be reasonable assumptions, the Company cannot assure investors that actual results will be consistent with these forward-looking statements. These forward-looking statements are made as of the date of this press release.
